RE: Capital Catalyst Fund Collateralization

Date: September 19, 2013

At the August CDA meeting staff was asked to develop a draft set of collateralization guidelines for the Capital Catalyst Fund.

One of the key points to remember is that this program has a much higher loss risk than other programs we operate. In addition, start-up companies are less likely to have large material assets to pledge to us as collateral. Individuals involved with this program also would be very hesitant to pledge their personal homes or issue a personal guarantee on an agreement with the CDA.

With this in mind, I would offer the following ideas as guidelines:

Grants

- No collateral is required since there is no expectation of repayment.

Loans

- No personal guarantee(s)
- If equity is available, possible mortgage back on business property.
- If CDA funds are used to purchase equipment, possible liens on the equipment.
- General Business Security Agreement (GBSA)

Royalty Agreement

- No personal guarantee(s)
- Without legal counsel, I believe that the CDA cannot ask for collateral under this type of an investment. The borrower is pledging a portion of their future revenues. If the revenues do not materialize, the CDA would not be entitled to compensation.
- Possible General Business Security Agreement (GBSA)

Equity Agreements

- No Personal guarantee(s)
- Same rights as other stock (equity) holders
- Possible General Business Security Agreement (GBSA)
- If equity is available, possible mortgage back on business property. (I doubt they would agree to this)

- If CDA funds are use to purchase equipment, possible liens on the equipment. (possible but limited collateral)

Because of the nature of the program and the risks associated with transactions, our collateral position will be significantly less that other loan programs. If the Board is in agreement with these concepts, I can draft them into a policy for adoption by the Board.

Please let me know if you have any questions.

Re: City of Whitewater Business and Technology Parks

Dear: XXX

The City of Whitewater Business Park and the Technology Park are home to many growing businesses. Situated along State Highway 59, the two parks sit adjacent to one another and have a direct access to the University of Wisconsin Whitewater campus. The parks have over 540 acres of property with full city services available to them. The road infrastructure was completed as part of a Tax Incremental Financing District. There are approximately 1,000 additional acres adjacent to the parks that can be acquired and annexed into the City.

One of the many featured buildings in the park is the Innovation Center. This state of the art facility was built by the Whitewater Community Development Authority (CDA) and the University. The University serves as the leasing agent for the building. This building is intended to assist new start up businesses by providing them a quality environment in which they can grow and eventually expand into a new facility.

The parks also houses several light manufacturing businesses that are looking to grow and expand their market place. These companies have utilized the quality workforce in the area and have grown over the years.

The CDA is looking to market the properties in a unique way. The vacant land is currently owned by the City and the CDA. In order to maximize our market exposure, we are offering a full commission to any licensed Broker upon the sale of any parcel within the parks. Under this scenario, you as the Broker would not be required to share the commission with the Buyers' Agent. If you have a client that would like to make an offer, we will in turn sign a commission agreement with you for that parcel or business entity.

It is our goal to develop these parks with high quality businesses that are either small manufacturing companies and/or companies that are technology based. The university shares our goal for the parks and they can offer assistance to prospective buyers by utilizing various campus resources.

Attached please find additional information regarding the parks. The link to our website is listed above. We will be contacting you within the next few weeks to discuss these opportunities with you. In the mean time, if you have any questions, please feel free to contact this office.

Sincerely,

Whitewater Business Park

RE: Class B Beer and Liquor License requests

Date: September 19, 2013

The City currently has one vacant reserve license for Class B Beer and Liquor. The Reserve License has an application fee of \$10,000.

At this time, three separate businesses have expressed an interest in obtaining this license. They will need to make their application before the City Council and they will decide on granting the license.

One of the potential applicants has expressed an interest in obtaining a grant from the CDA for the license application fee. Another of the potential applicants is aware of the program and I would expect that if they are granted a license, they would apply for the grant.

I wanted to place this on the agenda and let you know the background information. I understand that the City will be meeting to discuss the license in the near future. I wanted to have this on the agenda in case we would need to take action on a request.

If you have any questions, please let me know.

RE: Howard Road Property 

Date: September 19, 2013

As previously discussed, the tenants at the property on Howard Road have ended their lease agreement. They purchased a house.

I did complete an inspection of the facility and found that there was little to no damages associated with the occupancy during the lease. The interior was very clean and there were no damages to the walls or appliances. Therefore, I authorized the Finance Department to return their security deposit.

Greg Meyer was kind enough to help me go through the house to determine what needs to be fixed or brought up to code in order to lease the property out again. The following is a brief summary of what we felt need to be completed:

1. Replace the porch roofs and soffits on the front of the house. They have reached a point where they need to be replaced rather than repaired.
2. Install hand rails in stair ways. Code requires them
3. Power wash, stain and repair outside siding. It is a cedar siding and looked like it was in good shape. A portion on the north side needs to have siding installed.
4. Remove and replace the back deck. It is not up to code and it appears to lack support beams to keep the deck from sagging. Also, there were no hand rails which would be needed due to the steps.
5. Install dehumidifier in basement. There were some signs of mold and the basement had a musty smell to it. It was not overwhelming. The dehumidifier would help to reduce the problems in the basement. The foundation appears to be in solid condition.

As a ballpark, the estimated repairs would cost about \$8,000 to \$10,000. We would need to have someone actually prepare an estimate for us, if the Board decides to fix these problems.

Please let me know if you have any questions.

RE: Proposed 2014 Budget

Date: September 19, 2013

Attached please find a draft 2014 budget for the CDA. There are several recommended changes to the budget. They are:

1. The Marketing line item (223) was increased by \$2,500. This will allow the CDA to continue to make a contribution to the Discover Whitewater Series 2014 race. The Greater Whitewater organization has indicated that they will continue to hold the race.
2. The Legal Services line item (212) was slightly increased to help with some anticipated legal questions regarding the Capital Catalyst Fund.
3. The Consultant Fees (211) line item was increased to reflect additional hours in 2014. I anticipate longer days and outside the office (nights & weekends) as part of my work.
4. Other line items were adjusted to reflect cost savings.

The Revenues have also been adjusted to reflect the need to use less Fund Balance in 2014.

I would also point out that the 2013 total expenses will be significantly under budget for this year. Some of the saving is due to my time off and generally us spending less money for operational costs. I would anticipate very little use of Fund Balance in 2013.

I have met with the City Manager and Finance Director to discuss the budget. I believe that we can still make adjustments prior to it being distributed to the City Council.

Please let me know if you have any questions.
