

A SERVICE OF THE WISCONSIN TAXPAYERS ALLIANCE

Municipal Facts 11

Whitewater Customized Report

Per Capita Spending

Basic and Operating

Basic spending is the sum of general government, street maintenance, fire-ambulance, and police expenditures. It is a measure of what a community spends on essential or core services. Operating spending is a broader spending measure. It includes basic spending as well as other expenditures, such as those for health and human services, recreation, and public works. Only debt service and capital payments are excluded from this category. For both measures, revenues received from other municipalities for fire or police services are netted out.

Basic Spending (Net)
Per Capita, 2009

Operating Spending (Net)
Per Capita, 2009

Per Capita Spending

General Government and Street Maintenance

General government spending includes expenditures for general and financial administration, legislative functions, legal services, and general buildings and plant. Street maintenance costs include road maintenance, street lighting, highway administration, and sewer.

General Government
Per Capita, 2009

Street Maintenance
Per Capita, 2009

Per Capita Spending

Fire and Police

Fire-ambulance expenditures include the costs of operating a fire department and providing mobile emergency care. They also include payments to other municipalities or private companies if a municipality does not provide its own service. Revenue municipalities receive for providing fire-ambulance service to other communities are subtracted. Police spending includes expenditures for traffic patrol, criminal investigation, and other police activities. Again, revenues for providing these services to other municipalities are subtracted.

Property Taxes and Shared Revenues

Per Capita

Property taxes are the largest revenue source for most Wisconsin municipalities. Since 2005, municipalities have been under state-imposed levy limits. The state shared revenue program distributes state taxes to local governments for discretionary use. Declines in shared revenues can sometimes be accompanied by increases in property taxes.

Property Tax Levy
Per Capita, 2010

Shared Revenues
Per Capita, 2009

General Obligation Debt

General obligation debt is backed by the full faith, credit, and taxing power of the issuing government. Governments are legally obligated to levy the taxes necessary to meet the debt service payments. Under state law, general obligation debt is generally limited to 5.0% of total equalized value of real and personal property, including the value of property in tax incremental financing (TIF) districts. As a result, property-rich municipalities are able to assume more debt than property-poor ones. The charts below show general obligation debt per capita, and as a percentage of the state limit.

Miscellaneous Characteristics

Income and Percentage Residential

The graph below (left) shows Wisconsin adjusted gross income per state tax return filed. This measure shows average income among residents of individual communities. The second graph shows what share of the municipal property tax base is classified as residential property. In recent years, residential property has grown into the majority of total property, driven by higher demand for housing than other kinds of property.
