PUBLIC SERVICE ANNOUNCEMENT

ATTENTION CITY RESIDENTS:

Effective immediately, please run a stream of cold water at a pencil thickness (outside dimension) in one faucet at your residence and/or place of business 24 hours per day, 7 days a week, until further notice. The unusually cold winter has caused frost levels in the streets and yards to extend below the bury depth of a standard water service line, which can cause freezing in less than 4 hours. If your residence is on a dead end street or built prior to 1980 it is especially important for you to run water to prevent freezing. In apartment buildings, only one unit needs to run water.

You will not be charged for the additional water and sewer charges. Please call the City of Whitewater water billing department at 262-473-1383 to confirm that you are running water and to receive an adjusted water bill. Please check the city website for continuous updates at www.whitewater-wi.gov.

Thank you for your cooperation!
