

Natural Lawn Care 101

FREE WORKSHOP

Learn how to create and maintain a healthy, natural and beautiful lawn while protecting our community's waterways

Thursday April 8, 2010
6:00-8:30 pm

Janesville Rotary Gardens
1455 Palmer Drive
Janesville, WI 53545

What is natural lawn care?

Natural lawn care is an environmentally friendlier way of growing and maintaining a beautiful, low-maintenance lawn with non-toxic materials and less water waste.

Topics covered:

- ◆ Why natural lawn care is important for you
- ◆ How to maintain lawn and gardens using natural practices and products
- ◆ Answers to your lawn care questions
- ◆ Home and garden tips to save water and protect local waterways

Pre-registration appreciated: Call Rebecca Dill at 773-496-4020 or email at rdill@biodiverse.org. Include your name, e-mail address and phone number.

Sponsored by Rock River Stormwater Group and UW-Extension
