Dear Mr. Marquardt,

I have my office on 2<sup>nd</sup> street and recently have had the issue with people parking in front of my office for the whole day. Apparently it is 2 hour parking or Permit Parking. The vehicles that are parking there have permits but this is causing a problem for my patients who are coming into my office. Many times they are older or in a lot of pain and having to parking farther away is a problem. I don't want it designated as handicapped parking because many of them don't have handicap parking permits. They are in a lot of pain though and it's difficult for them to walk distances. I would appreciate it if you would change that to a 2 hour limit sign without the permit allowance. It would be incredibly helpful and much appreciated if you were able to allow for that change. There is other permit parking available, for instance down by the park that is available for use.

Thanks you for your consideration.

Dr. Peg
